Homework #4

# Lines of Code vs. # Tests Passed

- The graph shows a scatter plot with data points indicating the relationship between the number of lines of code and the number of tests passed.
- There is no clear trend or correlation observed from the data points.

- The x-axis represents the number of lines of code, ranging from 200 to 700.
- The y-axis represents the number of tests passed, ranging from 30 to 60.
